## Overview of ZooMonitor Workflow

ZooMonitor is organized into the App and Admin sections. See the diagram below for a typical workflow in ZooMonitor.

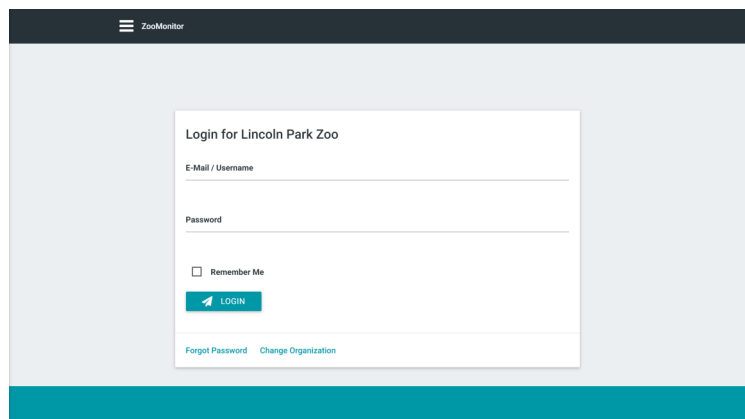

Sign Into the App and Admin Sections

After you've signed in on a device, when you go to ZooMonitor.org you'll start at the App sign-in screen. To sign into the App you must have an Observer profile. After you sign into the App, you can go to your Admin section by clicking Admin in the main menu or footer, then enter your Admin username and password. Note: to provide access to both the App and Admin sections, you will need both an Observer and Admin User profile (see Getting Started guide).

App Sign-in

Admin Sign-in
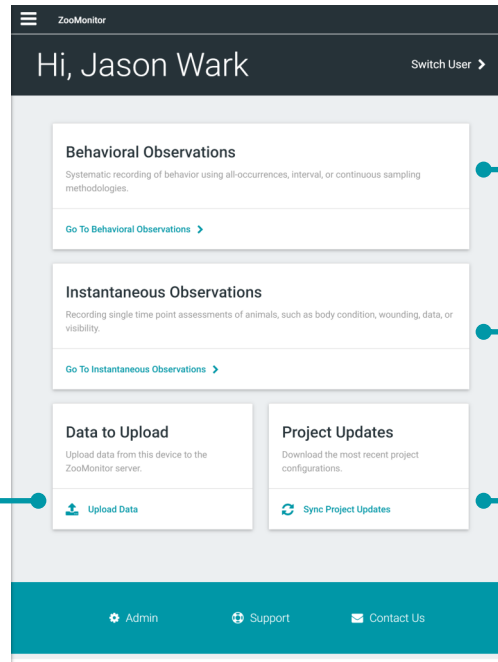

The App Section

Main Menu
Navigate to any area in the App and access Admin.

Current Observer/ Sign Out
Displays the current Observer. Click Switch User to sign in as another Observer.

Data to Upload
Upload all of the data stored on your device. Note: You must have WiFi available to upload sessions (but not to record data).

Behavioral Observations
View and record data on your Behavioral Observation projects.

Instantaneous Observations
View and record data on your Instantaneous Observation projects.

Project Updates
Download project updates to sync all changes you've made in Admin, including any new or modified projects, and new Observers.

App screen (mockup)

ZooMonitor

Hi, Jason Wark — Switch User

Behavioral Observations
Systematic recording of behavior using all-occurrences, interval, or continuous sampling methodologies.
Go To Behavioral Observations ›

Instantaneous Observations
Recording single time point assessments of animals, such as body condition, wounding, data, or visibility.
Go To Instantaneous Observations ›

Data to Upload
Upload data from this device to the ZooMonitor server.
⬆ Upload Data

Project Updates
Download the most recent project configurations.
↻ Sync Project Updates

⚙ Admin   ⊕ Support   ✉ Contact Us

The Admin Section

Main Menu
Navigate to any area in Admin and access the App.
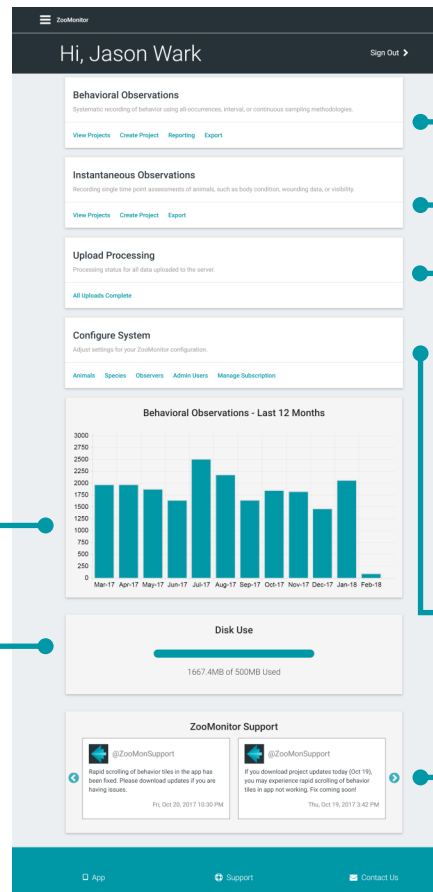

Current Admin/ Sign Out
Displays the current Admin User. Click Sign Out to sign in as another Admin User.

Monthly Overview Graph
Charts the monthly number of Behavioral Observations for the last year on your license account.

Disk Use
Displays the current total storage space used by your license.

Behavioral Observations
Create and edit projects, then build reports and export data for analysis.

Instantaneous Observations
Create and edit projects, then export data for analysis.

Upload Processing
Displays the number of pending session uploads for your account.

Configure System
Create new user profiles and add animals you'll be observing.

ZooMonSupport Twitter
Feed showing tweets from our ZooMonSupport twitter account.

ZooMonitor Support
@ZooMonSupport
Rapid scrolling of behavior tiles in the app has been fixed. Please download updates if you are having issues.
Fri, Oct 20, 2017 10:30 PM

@ZooMonSupport
If you download project updates today (Oct 19), you may experience rapid scrolling of behavior tiles in app not working. Fix coming soon!
