

On iOS devices, ZooMonitor must be installed as a home screen app through the Safari web browser (cannot install using Chrome). Please follow these steps to install ZooMonitor on iPads and other iOS devices.

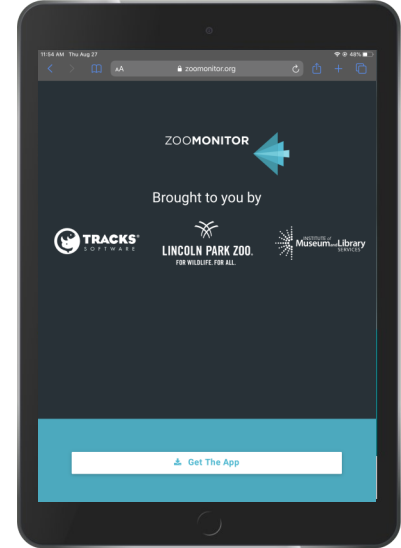

## 1 Visit ZooMonitor.org using Safari web browser

Using Safari web browser, go to <https://zoomonitor.org>.

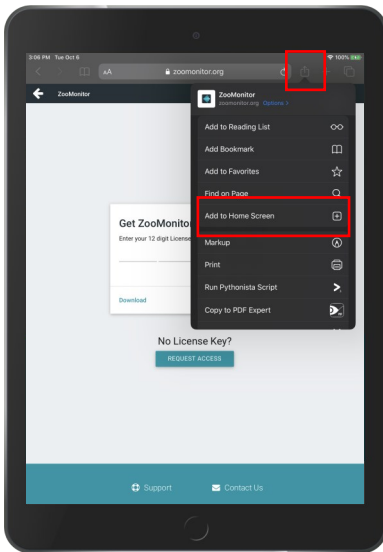

Click the menu icon in the top left of your screen and click Sign In.

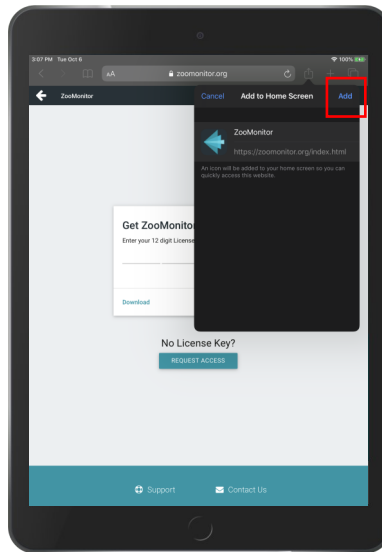

Click Get the App and pause on that screen before entering your license key.

## 2 Install ZooMonitor as a home screen app

Click the Share icon in the top right of your screen, then click Add to Home Screen.

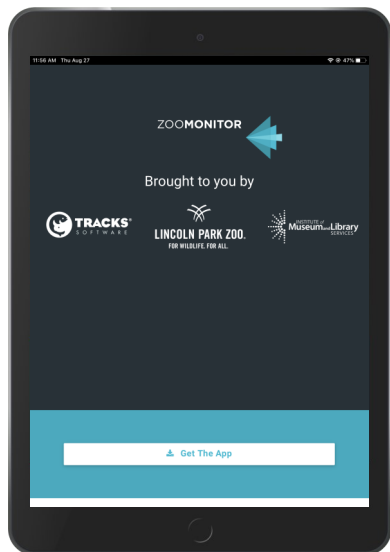

Click the Add button to add ZooMonitor as a home screen app.

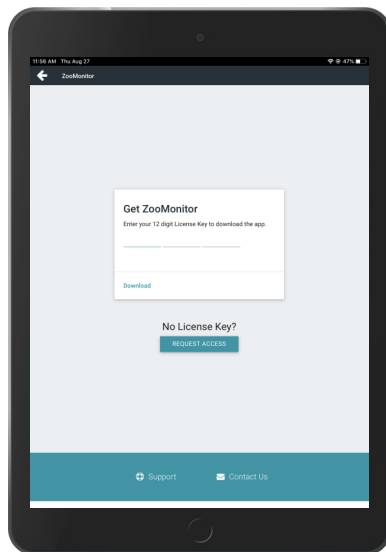

On your home screen, you should see an icon for ZooMonitor now.

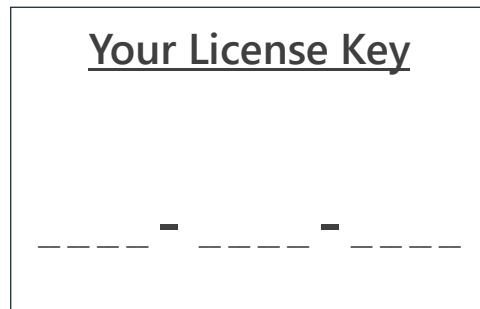

## 3 Open ZooMonitor and download your projects

Click the ZooMonitor icon on your home screen and then click Get the App.

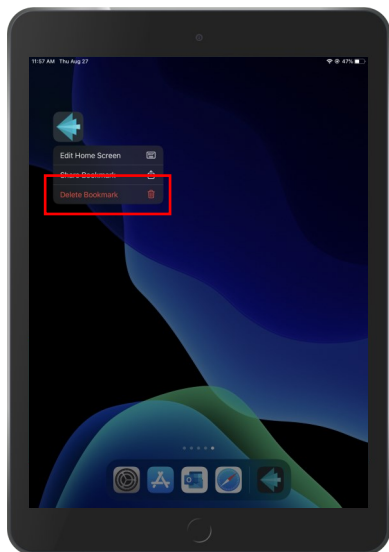

Enter your 12 character license key (not case sensitive).

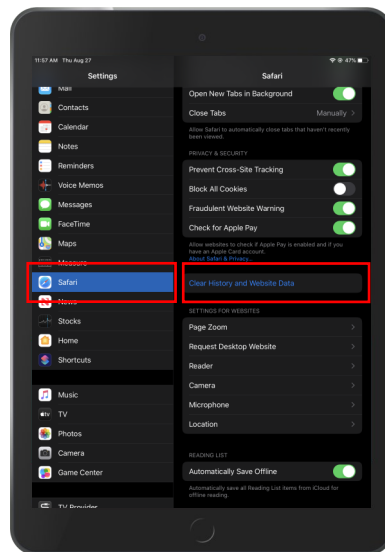

Print this guide and write your license key above for easy sharing with coworkers.

## ! Delete ZooMonitor from device to reinstall (if needed)

Please confirm all sessions are uploaded off the device before deleting ZooMonitor.

Touch and hold the icon on the home screen and select Delete Bookmark.

Open Settings, select Safari in the left pane, and then click Clear History and Website Data. Go to step 1 to redownload ZooMonitor.
